Platforms/Tools: Git, Github, Jira, Confluence, Postman, Figma, Tableau, ArcGIS, Excel, Markdown, Notion, Trello

WORK EXPERIENCE

Technical Writing Intern — June 2026 - September 2026
IBM (AI for Developers Team) — Austin, TX

- Defined product roadmaps and user stories for organizational and team agentic memory prototype and demo
- Restructured Deckflow's entire codebase (DJ software built with agentic IDE) for TechXchange conference
- Wrote technical articles for the IBM THINK blog, effectively translating AI design concepts to broad audiences

Fullstack Software Engineer Co-op — January 2026 - June 2026
Clear Ballot Group — Nashua, NH

- Supported agile development through sprint planning, retros, design reviews, and QA/documentation handoffs
- Owned ballot-casting workflows end-to-end, from scanner hardware to animated SVG-based UI animations
- Shipped 60+ FastAPI endpoints in Python, consistently driving a move to modular, maintainable architecture

Software Consultant — June 2025 - July 2025
Axon25 — Sydney, NSW

- Designed a thorough benchmarking framework evaluating 5 speech-to-text models to inform model selection
- Applied diarization and semantic-accuracy scoring to define a clear, measurable product quality benchmark
- Integrated OpenAI Whisper and GPT-4o-mini ML models to extract health notes, achieving 95% word accuracy

Copywriter Co-op — January 2025 - June 2025
Bose — Boston, MA

- Authored emails and app notifications for the Bose x LISA campaign, driving over 8,000 new member sign-ups
- Collaborated with cross-functional teams including designers and developers to deliver promotional landing pages
- Co-authored Bose's first brand book, establishing voice, tone, and messaging standards across all platforms

LEADERSHIP EXPERIENCE

Project Manager — September 2025 - Present
Scout Studio — Boston, MA

- Leading a team of 8 developers and designers through the launch of a website for the College of Art and Design
- Partnering directly with clients to help define product strategy, scope, roadmap, acceptance criteria, and handoffs
- Owning documentation and post-launch deliverables, producing a detailed project case study and brand book

User Experience Lead — September 2024 - April 2025
Innovators of Global Health (IGH) — Boston, MA

- Led a team of 10 designers in creating Nurture Nest, a maternal mental health care app for both iOS and Android
- Conducted interviews with doctors, nurses, and patients to identify different pain points and product requirements
- Developed a 40-week fruit comparison tool helping mothers track fetal development with clear, relatable visuals

PROJECTS

FitHub, E-commerce platform | *Python, SQL, Streamlit, Docker* | https://github.com/londonjones4189/FitHub

- Defined a 4-role product model, swapper, taker, analyst, admin, based on core audience needs
- Built a Streamlit dashboard with SQL, surfacing engagement metrics to inform product decisions
